OVERVIEW

Tom Michalic is the Founder & Managing Partner at Makeover Homes. His key role is to ensure the execution of each brand's core functions and how they complement each other in the efforts to serve many clients which include Lenders, Mortgage Loan Officers, Realtors, Sub-Contractors, Project Managers, Inspectors and Clients who are buying and/or selling a home with some sort of renovation component.

Tom started Makeover Inspections and Consulting in 2010 and has personally overseen over 1,000 renovation projects. He's one of the only renovation professionals in the USA that simultaneously holds multiple professional credentials (Licensed Real Estate Broker, Licensed Loan Originator, Licensed General Contractor, VA Approved Contractor) which makes him an industry leader in the Renovation Loan niche.

RLS has become an integral tool for Tom's national team of Licensed HUD Consultants to help manage and scale Makeover's consulting business. RLS gives the Makeover team the ability to create SOR's, manage draws, and generate/track invoicing with ease.

PARTNERING WITH RENOVATION LENDING SOFTWARE

Web based technology allows team to work from anywhere on any device.

Streamlined workflows allow us to do more work in less time so we can handle more business

Reduce draw time by completing more or all of the work in the field and with DocuSigns integrations lenders can often have the draw sent over before leaving the property.

Professional looking reports that are easy to read helps to reduce questions from the customers

Increased customer satisfactions with our lender partners and integration with lenders who use RLS helps speed up the process and keeps them sending over new business.

RLS is great to work with. The system is industry leading and helps make our process, faster, predictable. It help us provide a high level of service and quality data to all parties involved in the process.
